SWISS CHEESE

i love the yummy swiss cheese. I just munch it up. About 75% of my food intake is just swiss cheese. The rest is cottage cheese. But oh don't get me started, White cottage cheese is good I couldn't really say it's as good as the yummy swiss cheese. I'm just watering from the mouth thinking about the swiss cheese. Why am I even writing this down when I could be eating swiss cheese; Its because Im paid in swiss cheese that's right I love that yummy swiss cheese so much I got my boss to avoid countless laws and pay me in that oh so good swiss cheese.

MY PETS

I have about 3 pet's. I love them all equally but I'm planning on eating one. But you must think "Oh My dearest cheese lover why would you eat your pet!?!?!?"... Well I have a surprise for you. They're all made of cheese. I paid a professional sculptor to make me one cheese dog, Swiss cheese of course, And then 2 Cottage cheese cat's.

Cottage cheese is the best for the cats just so I wouldn't eat them. But oh boy when I get through the first dog you know I'm gonna eat my yummy cottage cheese cats

WHO WE CHEESE?

We all lived in deception a lie of sorts a cheese made built by Chester himself for a rat could someday come down and bless me with his holy bite.

We are nothing without cheese; But everything with cheese

We built ourselves on the idle that we could be one without the cheese but we have been built on a web of lies that leads all the way down to the core. Cheese will bring stability to this once thriving village.

CHEESE FACTS

Did you know that I once
kissed chester cheetah in my
bliss?

- Cottage cheese is the most unholy of cheeses out there. but its just so good I cant stop filling my mouth with the endless supply the restaurant supplies of the amazing cottage cheese that I heart so dearly. But on another level I love Swiss cheese with its endless supply of buttery goodness that brings life to me. Without both in combination I would not be here today because I LOVE SWISS CHEESE SO MUCH. Have you ever had a swiss and cottage cheese sandwich. I dont think you have so Im gonna explain. SO the swiss cheese is the brea and then the cottage cheese is like the jelly or peanut butter I guess. its just so yummy and some corn cheese as a side, well thats a combo only rivaled by my cheese love itself.

IS CHESTER CHEETAH SOUL STEALING DEMONIC GHOST FROM SATAN?

There is certainly no proof that Chester is not a Demonic Soul stealing ghost. In the image we see below we see undeniable evidence of Chester stealing a soul from a young boy.

Now under his spell he yearns to be one with Chester

There souls are already being absorbed

BUT WHO CHEESE?

ME

me next!

WHO WE CHEESE.

Cheese is a very important part of of cheese it brings us together with the cheese. It's always important to keep at least 50% of our diet cheese, cheese to to cheese balanced!

But if we pray to our holy saver and tax shelter Chester Cheetah then we can increase our daily digestion of cheese, but you need to offer atleast 25% cheese worth of money for gain in total cheese. Chester Cheetahs lover Tony the Tiger will get about 12.5% of the profits from Chesters total gain.

CHEESE, CHEESE BOND

That was cheesy, what

It was a cold morning when I saw it, I'd seen alot of things like it since I started working at the firm, but nothing this cruel. I had been getting up for work at the firm just like any day, But something was off, the garage door slowly opened, inside I saw a bowl sitting blanky but almost fearingly in the middle of the cold room, I took a step forward into the dark room, I bent down to see what was inside. I sat horrified, someone had murdered a swiss cheese, I looked over at the wall, almost tauntly on the wall there it was spelled out in cottage cheese, my name. I tried holding it in but I couldn't, as the tears clouded my vision the room was slowly illuminated, 15 feet infront of me sat it, I though it was chester, but it couldnt I had to of been mistaken, I felt myself become dreamy, that was the last thing I could remember.

TARGET BRAND CHEESE; TOO LITTLE TO LATE, CH4 WHERE'S MY MONEY

Thats when it happened, I awoke in a dark room. The room was covered head to toe in new papers and articles about cheese, red string and dots connected them all. Infront of me it sat, I knew him by only one name Chester. I didn't know what he was going todo with me but it couldn't be good. Out of the front pocket of his heavy trench coat he pulled something else, it was a colorful bag, on it with a massive title "Corn Chips". He started to yell out the words "CAN YOU TELL ME WHY THESE GOD DAMN CHIPS ARE GETTING MORE PROFIT THEN MY CHEESE". My ear drums almost bursted from it.
